

# MISSION STATEMENT

Here at Create A Splash we live by the famous Einstein quote.

*“Everybody is a genius. But if you judge a fish by its ability to climb a tree, it will live its whole life believing that it is stupid”*

We believe that by creating ourselves around your child instead of expecting them to fit into cookie cutter lesson moulds we will give them the necessary tools so they all can make a splash!

We use the colours of the rainbow repeatedly in our logo, branding and our teaching supplies. This is because we are every colour, for every child and for everyone. We believe that by teaching the child how the child needs to be taught, we will have much happier and safer swimmers in our waterways!

We pride ourselves on having a gentle approach with your child, we know through our teachings that a stressed brain learns nothing. We work on the ethos that our calm space allows the brain to relax and learn.

Studies show children who do swimming lessons have better gross development and cognitive development and make better sleepers helping the body and brain to learn and grow!

*“If a child can’t learn the way we teach then we should teach the child the way they learn”*
